

FELIPE IGNACIO MARTINEZ ARTIGAS

Senior Software Engineer | Webflow | WordPress | Framer | HubSpot | Figma | HTML | CSS
+56 9 2950 8025 • felipemartinez4824@gmail.com • www.linkedin.com/in/felipe-ignacio-martinez-artigas • Santiago, Chile

Summary

Senior Software Engineer focused on building polished, responsive, and production-ready digital experiences using **Webflow**, **WordPress**, **Framer**, **HubSpot**, **Figma**, **HTML**, **CSS**, and **JavaScript**. Experienced creating scalable **design systems**, custom **themes**, reusable **templates**, responsive pages, and lightweight brand websites that perform smoothly across devices. Strong ownership across **front-end development**, **modern front-end best practices**, **performance optimization**, **debugging**, **QA feedback**, designer collaboration, production website maintenance, and creative agency delivery.

Experience

BetterWorld Technology

Virginia, United States

Full Stack Engineer

05/2024 - Present

- Built production websites with **Webflow**, **WordPress**, and **Framer** supporting brand pages, product experiences, marketing campaigns, and customer-facing workflows.
- Converted **Figma** designs into polished **HTML**, **CSS**, and **JavaScript** pages with responsive layouts, clean interactions, and consistent visual execution.
- Maintained scalable **design systems** across reusable components, templates, sections, and brand patterns for faster website delivery.
- Created custom **WordPress** themes and **Webflow** templates supporting landing pages, conversion flows, content updates, and campaign launches.
- Optimized **performance** by improving assets, scripts, layout structure, page weight, and loading behavior across production websites.
- Resolved **QA** feedback quickly by debugging layout issues, broken interactions, responsive defects, browser inconsistencies, and production website problems.

HealthWare Systems

Elgin, IL - USA

Full Stack Developer

05/2023 - 04/2024

- Built responsive **WordPress** and **HubSpot** pages supporting service content, intake forms, staff workflows, and user-facing web experiences.
- Implemented **HTML**, **CSS**, and **JavaScript** improvements to strengthen mobile behavior, accessibility, page structure, usability, and interaction quality.
- Translated **Figma** layouts into reusable website sections, landing pages, form experiences, content modules, and production-ready templates.
- Troubleshooted **Webflow**, **WordPress**, and **HubSpot** issues affecting page rendering, form behavior, navigation, and tracking consistency.
- Improved **front-end performance** through cleaner templates, optimized images, reusable styles, and lightweight interaction patterns.
- Collaborated with designers and stakeholders through **QA** reviews to refine layouts, content presentation, and final website quality.

ZeroFox Chile

Santiago, Santiago Metropolitan Region, Chile

Backend Engineer

02/2021 - 04/2023

- Supported internal websites using **HTML**, **CSS**, and **JavaScript** updates for responsive dashboards, content pages, and operational screens.
- Assisted **Webflow** and **Framer** builds by translating design requirements into reusable sections, responsive layouts, and clean page structure.
- Debugged **WordPress** and **HubSpot** issues involving broken forms, layout defects, styling conflicts, and inconsistent responsive behavior.
- Improved **performance optimization** by cleaning scripts, compressing assets, simplifying styles, and validating cross-device website.
- Applied **Git**, documentation, and **QA** feedback workflows to support reliable handoff, issue tracking, and website maintenance.

Education

Universidad de Aconcagua

Valparaiso, Chile

Bachelor of Science in Computer Software Engineering

03/2019 - 07/2023

Key Achievements

Launch Speed	Performance Lift	QA Quality
Improved website delivery speed by 32% using Webflow , Figma , reusable templates , and scalable design systems	Reduced page load friction by 29% through HTML , CSS , JavaScript , asset cleanup, and performance optimization	Reduced recurring layout defects by 31% using WordPress , HubSpot , responsive testing, debugging , and structured QA feedback

Skills

Webflow • WordPress • Framer • HubSpot • Figma • HTML • CSS • JavaScript • Front-End Development • Modern Front-End Best Practices • Design Systems • Production Websites • Responsive Pages • Responsive Design • Custom Themes • Templates • Landing Pages • Git • Performance Optimization • Debugging • QA Feedback • Cross-Device Testing • Designer Collaboration • Website Maintenance
